

Proudly Made in America

American Fiber Packaging Manufactures in the USA

We proudly manufacture American made thermoformed fiber products in the state of Georgia. Our factory is located in Tucker, a part of the Greater Atlanta Georgia metropolitan area. In an effort to give back to the local community, American Fiber Packaging employs hard-working people from the local counties including: DeKalb, Gwinnett, Fulton and more. Seeing the “Made in the USA” label instills a sense of pride and trust within our products and meets the demand of our valued customers.

Here at American Fiber Packaging, we test our products to ensure the highest quality standards. We strive to satisfy our customers by building long lasting relationships. Since our products are made in America, our customers can rest easy knowing that the products they demand are more readily available and decisions are made in the same time zone. Our business is not limited by strains in the global supply chain and we make it easy for our customers to contact us anytime.

American Made

Americans are now demanding products made in America more than ever. Recent research conducted by [Perception Research Services International](#) shows that American consumers demand products made in America, not because they are patriotic, but rather the fact that they value safer products of higher quality that are more readily available since they are made in America. The [Federal Trade Commission \(FTC\)](#) is charged with preventing deception and unfairness in the marketplace and brings law enforcement action against false or misleading claims that a product is of U.S. origin.

Buying products “Made in the USA” will send a powerful message to your customers. American Fiber Packaging far exceeds FTC requirements for using the “Made in the USA” label. We intend to help put American made products into the hands of Americans by purchasing raw materials from domestic sources. We not only sell products made in America but we also buy products made in America. Consumers are demanding products made in America and American Fiber Packaging is prepared to meet that demand.
